Expert Advisory Group

**SHAPE OF TRAINING**

*Item 3 Annex A*

### **Potential site visits for the review**

1. In selecting sites, we have identified places that will give us a good spread across regions, specialities and size of sites. We have also identified sites that will give us a feel for training in both hospitals and in primary care.
2. We ruled out sites that are being examined currently by the GMC within its response to concern process.
3. The sites we have selected are:

<b>England</b>	Birmingham	Birmingham Hospital Trust; Birmingham Children's Hospital; Royal Centre for Defence Medicine
	Taunton	Musgrove Park Hospital
	Nottingham	Nottingham Mental Health Trust
	London	University College London
<b>Northern Ireland</b>	Londonderry	Site to confirm with Dean
<b>Scotland</b>	North of Scotland	Primary Care site to confirm with Dean
	Edinburgh	Edinburgh Royal Infirmary
<b>Wales</b>	Cardiff	Primary Care site to confirm with dean
